

SUPPLIER	C.M.A s.n.c.	MACHINE	ROLLTEC - ROLLTEC Mini	YEAR	3/2016
CATEGORY	WINE PROCESSING	TYPE	ROLLER TABLE SELECTION	SERIE	ROLLTEC

The ROLLTEC is a sorting table with rollers made by C.M.A. for the separations of the grapes from MOG - stems, leaves, little unripe or dried grapes and other external items. The ROLLTEC has a vibrating hopper on the inlet side of the machine which conveys the grapes onto the sorting rollers.

The rollers are divided in two parts:

- The first section has six rotating axles with rollers properly designed to eliminate unripe or dried grapes, stalks, and all small residual items.
- The second section has nineteen rotating axles with rollers that allow the whole grapes to fall through.

The rollers hold the stalks and leaves until their elimination in the discharge conveyor.

The distance between the rollers is easily adjustable using a handle wheel on the outside the machine. The settings of the first roller section is independent from the second section, this in order to adapt the process in the best way both for separation of the debris and for the sieve of the sorted grapes.

Under the first section of the rollers there is a collection tank for the recycling of the debris and separation of the must.

There is an Optional conveyor hopper that goes under the second section of the rollers that directs the selected product so it can be sent to other machines.

The ROLLTEC is on a height adjustable heavy frame in order to be better adapted to other machines and crush pad layout requirements. The frame is on four castors with brakes for easy movement. The control panel is on an adjustable rotating arm with electronic speed variator allowing the setting of the roller speed.

ROLLTEC	
PRODUCTION	1 - 25 Tons/Hr
POWER	1 Hp
WEIGHT	815 Lbs

OPTIONALS

CMA-DREDRA-R0	Drawer separation grapes and must recovery, made with motorized auger for continuous expulsion of waste - ADDITIONAL PRICE
CMA-ROLHOP50-Q0	Hopper bottom with drain mm. 500 x 500
CMA-ROLT-DRA-R0	Additional Internal slotted drawer (waste recovery)
CMA-ROLT-RAFR200-R0	Raised frame 200mm. ADDITIONAL PRICE
CMA-ROLT-RAFR400-R0	Raised frame 400mm. ADDITIONAL PRICE
CMA-ROLT-RAFR600-R0	Raised frame 600mm. ADDITIONAL PRICE
CMA-ROLT-TAB-R0	Table without hopper. DEDUCTION FROM THE PRICE
